

AMENDMENTS TO THE SPECIFICATION

Please delete the Title and substitute therefore the following:

Method Of Producing A Temperature-Dependent Switch With Stamped-On Adhesive Layer

Please delete the Abstract section of the specification and replace with the following:

p For producing a temperature-dependent switch, which has a temperature-dependent switching mechanism which is accommodated in a housing and, depending on its temperature, establishes an electrically conducting connection between at least two connection electrodes arranged on the outside of the housing, the switching mechanism is placed in a lower part of the housing, the lower part is closed off with a cover part while forming at least one join, an adhesive layer is stamped on near the join in order to seal the join, and the adhesive layer is allowed to cure.
